## Description:

Glaze and glow. . . a layer-by-layer approach to realism! Bring new life to your paintings using transparent glazing. Step by step and layer by layer, this book will show you how to use this classic approach to infuse your work with radiant color, exquisite texture and a breathtaking sense of light. 5 simple studies focus on using glazes to evoke a wide variety of realistic still life textures--fruits, flowers, silver, glass and more. 5 full-length demonstrations show the creation of stunning still-life paintings from start to finish. Features expert instruction on everything from prepping painting surfaces and selecting colors, to artfully composing light and shadow. Plus an entire chapter devoted to painting strong complementary backgrounds for realistic, fluid compositions. Radiant Oils is perfect for oil artists who want to explore the beauty of glazing, watercolor artists who want to try their hand at oils and any painter wishing to achieve stunningly realistic effects using classic, straightforward techniques inspired by the Old Masters.

This book is all about glazing. There are hundreds, if not thousands of books on other, more common oil painting techniques, such as impasto, plein air, alla prima, but this book focuses solely on glazing. The Old Masters used glazing on rich fabrics and jewels so it is important to add the knowledge of glazing techniques into your oil painting skills. If other oil painting books mention glazing, it is just in passing. Arleta happens to be an accomplished watercolor artist and she incorporates her knowledge of watercolor skills into this book on glazing. She is very experienced in painting in layers, and creating luminosity with transparency. Arleta loves floral still lifes, so all of her projects are still lifes with flowers in them. But she also talks a lot about photographing the subject, stretching the canvas and which exact oil colors she uses for her glazes. She also discusses the various alkyd mediums so you know how they compare. The book is a series of exercises and projects, going from a simple sphere and then some fruit, to complicated projects of crystal, silver, and sweet peas. The picture on the cover of the book is one of the projects. This book is set up to truly teach you HOW to do it. She breaks down every project into many steps, telling you exactly which colors to use and where to put them. So, even if you are not into flowers or still lifes, this book will give what you need to know so that you can incorporate the tools of glazing into any of your own oil paintings.
